Areas of use

- Small offices
- Galleries
- Upscale shops
- High-end salons
- Boutique hotels

Recommended maximum daily output 30 cups

WE8
Specialty coffees for the workplace

For lovers of specialty coffee

Benefits

- Pulse Extraction Process (P.E.P.®) optimizes extraction time to guarantee professional quality, barista-style coffee
- The Intelligent Water System (I.W.S.®) automatically detects the filter while the CLEARYL Smart and CLEARYL Pro Smart ensure perfect water quality
- Buttons on the front of the machine and a modern TFT display make operation incredibly simple even for inexperienced users
- Cappuccino spout, height-adjustable on a continuous scale for cappuccino, latte macchiato and flat white topped with fine foam at the touch of a button

Recommended accessories

- Cup warmer
- Cool Control Basic

Wherever customers, staff and visitors can enjoy superlative coffee, the atmosphere is relaxed, communicative and productive. Anyone who appreciates the finer things in life, a wide choice of specialty coffees and aesthetics will love the WE8. A water tank with a 101 oz holding capacity, a bean container for 17.6 oz of coffee beans and a coffee grounds container with a capacity of 25 portions make the elegant professional coffee machine the ideal solution for locations where around 30 specialty coffees are consumed per day. Innovative technologies revolutionize the enjoyment of coffee. The One-Touch function creates trend specialties like latte macchiato, flat white or cappuccino very simply at the touch of a button. Buttons on the front of the machine and a modern TFT display make operation incredibly simple even for inexperienced users.

State-of-the-art technologies for perfect enjoyment

The WE8 offers 12 different specialties. JURA has perfected the complete brewing process for short specialty coffees, allowing the WE line to make them to professional barista standard every time. The six-level Aroma⁶³ grinder ensures that the coffee is optimally ground. It always grinds the beans fresh, quickly yet gently to preserve the aroma. The Pulse Extraction Process (P.E.P.®) developed by JURA optimizes the extraction time. To make a ristretto or espresso, it forces the hot water through the ground coffee at short intervals. The One-Touch function on the WE8 allows you to make trend specialties finished with milk and milk foam at the touch of a button, without having to move the cup.

TÜV-certified hygiene guarantee

Cleanliness and hygiene are essential in the workplace, so integrated rinsing and cleaning programs combined with specially developed cleaning products for JURA coffee machines ensure perfect hygiene at the touch of a button. The milk system is also cleaned quickly and easily at the touch of a button. This complete hygiene system, which is certified by TÜV Rheinland, makes the WE line an excellent choice for premises which operate a HACCP* concept.

As individual as your requirements

Because requirements vary from one situation to another, the WE8 comes with many options for programming and customization. The amount of ground coffee and water can be adapted to suit personal preferences and the cups and glasses used. It is also possible to give preference to certain specialty coffees by disabling others. Various modes are available on request that only allow presettings and cup volumes to be changed after entering a certain key combination.
